The Mindful Attention Awareness Scale (MAAS) - State

The state MAAS is a 5-item scale designed to assess the short-term or current expression of a core characteristic of mindfulness, namely, a receptive state of mind in which attention, informed by a sensitive awareness of what is occurring in the present, simply observes what is taking place.

Instructions: Using the 0-6 scale shown, please indicate to what degree were you having each experience described below when you were paged. Please answer according to what really reflected your experience rather than what you think your experience should have been.

Scoring: To have high scores reflect higher state mindfulness, reverse score all items then average all 5 values.
